

**Paperwork Reduction Act Statement:** The information collected on this form is necessary to ensure applicant eligibility. The information is used to determine that the applicant meets the necessary qualifications as owner of an amateur built aircraft. We estimate that it will take approximately 30 minutes to complete the form. The information collection is required to obtain a benefit. The information collected becomes part of the aircraft registration system. Please note that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. **OMB 2120-0042.** Comments covering the accuracy of this burden and suggestions for reducing the burden should be directed to the FAA at 800 Independence Avenue SW, Washington, DC 20591. ATTN: Information Collection Clearance Officer, AES-200.

**AFFIDAVIT OF OWNERSHIP FOR AMATEUR-BUILT AND OTHER  
NON-TYPE CERTIFICATED AIRCRAFT**  
(does not include light-sport)

U. S. Identification \_\_\_\_\_

Name of Amateur / Non TC'd builder \_\_\_\_\_

Model \_\_\_\_\_ Serial Number \_\_\_\_\_

Class (airplane, rotorcraft, glider, weight shift control, powered-parachute, etc.) \_\_\_\_\_

Type of Engine Installed (reciprocating, turbo prop, 2 or 4 cycle, electric, etc.) \_\_\_\_\_

Manufacturer, Model and Serial Number of each Engine Installed \_\_\_\_\_

\_\_\_\_\_ Number of Engines Installed \_\_\_\_\_

Built for Land or Sea Operation \_\_\_\_\_ Number of Seats \_\_\_\_\_

**MUST CHECK ONE**

- More than 50% of the above-described aircraft was built from miscellaneous parts and I am the owner. (This option is for aircraft eligible for amateur-built certification.)
- More than 50% of the above-described aircraft was built from a kit (prefabricated parts) and I am the owner. The bill of sale from the kit manufacturer is attached. (This option is for aircraft eligible for amateur-built certification.)
- I certify that the above-described aircraft is a newly built non-type certificated aircraft and is not currently registered in another country. (This option is for aircraft eligible for experimental certification other than amateur-built.)
- I certify that the above-described aircraft is a previously built (used) non-type certificated aircraft and is not currently registered in another country. (This option is for aircraft eligible for experimental certification other than amateur-built certification.)
  - Evidence of ownership from the aircraft builder through any intervening owners is attached (chain of ownership).
  - Unable to obtain complete chain of ownership. Statement as to ownership history and whereabouts of aircraft is attached.

**PRIVACY ACT STATEMENT:** Privacy Act of 1974 (PL 93-579) requires that users of this form be informed of the authority which allows the solicitation of the information and whether disclosure of such information is mandatory or voluntary; the principal purpose for which the information is intended to be used; the routine uses which may be made of the information gathered; and the effects, if any, of not providing all or any part of the requested information.

Title 49, United States Code requires the registration of each United States civil aircraft as a prerequisite to its operation. An aircraft is eligible for registration only: (1) if it is not registered under the laws of any foreign country; and (2) if it is owned by (a) a citizen of the United States; or (b) an individual citizen of a foreign country who has lawfully been admitted for permanent residence in the United States; or (c) a corporation lawfully organized and doing business under the laws of the United States or any State thereof so long as such aircraft is based and primarily used in the United States; or (d) a governmental unit. Operation of an aircraft that is not registered may subject the operator to a civil penalty.

This form identifies the aircraft to be registered, and provides the name and permanent address for mailing the registration certificate. Incomplete submission will prevent or delay issuance of your registration certificate.

The following routine uses are made of the information gathered:

- (1) To determine that aircraft are registered in accordance with provisions of the Title 49, United States Code.
- (2) To support the investigative efforts of Federal, State and foreign government law enforcement agencies.
- (3) To serve as a repository of legal documents used by individuals and title search companies to determine the legal ownership of an aircraft.
- (4) To provide aircraft owners and operators information about potential mechanical defects or unsafe conditions of their aircraft in the form of airworthiness directives.
- (5) To provide supporting information in court cases.
- (6) To serve as a data source for management information for production of summary descriptive statistics and analytical studies in support of agency functions for which the records are collected and maintained.
- (7) To respond to general requests from the aviation community or public for statistical information under the Freedom of Information Act or to locate specific individuals or specific aircraft for accident investigation, violation, or other safety related requirements.
- (8) To provide data for the automated aircraft registration master file.
- (9) To provide data for development of the aircraft registration statistical system.
- (10) To prepare an aircraft register in electronic media as required by ICAO agreement containing information on aircraft owners by name, address, N-Number, and type-aircraft, used for internal FAA safety program purposes and also available to the public (individuals, aviation organizations, direct mail advertisers, state and local governments, etc.) upon payment of applicable user charges reimbursing the Federal Government for its costs.
- (11) The aircraft records maintained by the Aircraft Registration Branch are public records and are open for inspection in Room 122 of the Registry Building, Mike Monroney Aeronautical Center, 6425 S Denning, Oklahoma City, Oklahoma. Individuals interested in such information may make a personal search of the records or may avail themselves of the services of a title search company or law firm.

**PLEASE REMOVE THIS PORTION BEFORE SUBMITTING TO FAA.**
